

# Mashpee Senior Center

## Transportation

### **What transportation options are available through the Senior Center?**

There are two options available for Mashpee seniors through the Senior Center:

- The Senior Center operates a van service that runs between Mashpee and other local towns on a scheduled basis. The van is handicapped-accessible with a wheelchair lift. The current schedule and more complete information are available in the monthly Senior Connection newsletter.
- Through our volunteers, rides to local doctors' appointments can be arranged. For more information on this service, please contact our Outreach Coordinator.

In addition, the Cape Cod Regional Transit Authority (CCRTA) provides transportation to Boston hospitals and through its DART buses, door-to-door, ride by appointment transportation service. For more information on CCRTA, please call (800) 352-7155 or see their website: <http://www.capecodtransit.org/>
